Industrial Vehicle Parts

TAYLOR-DUNN YAMAHA POLARIS

Taylor-Dunn Serial Number

When requesting parts or technical information for your vehicle always quote your serial number.

All Taylor-Dunn vehicle serial numbers since 1991 are 6 digit numbers

Please refer to the below chart to identify the year of your vehicle by serial number:

Vehicle History by Serial Number

Use the chart below to identify your vehicles manufactured year.

YEAR	BEGINNING #	ENDING #
1965	1	6682
1966	6683	8353
1967	8354	10378

REVISION: A

VEHICLE IDENTIFICATION, SERIAL NUMBER FRAME STAMP AND VEHICLE DATA PLATE LOCATIONS

This document is for identifying Taylor-Dunn vehicles and the location of the vehicle data plate and serial number frame stamp.

The first section is for current production vehicles and illustrates the current location of the data plate and frame stamp.

NOTE: Although a specific model may still be in current production, the location of the data plate and/or frame stamp may be in a different location on older vehicles. If the data plate or frame stamp cannot be found, refer to the Vintage or Non-Production Vehicle section.

The second section, Vintage or Non-Production Vehicles, is for models no longer in production and also includes alternate locations for the data plate and frame stamp for models still in current production.

Each page will have a generic picture of the vehicle model and illustrations of the data plate location(s) and where the serial number is stamped into the frame.

NOTE: Many special modifications have been available for all models. Your vehicle may not look exactly like the generic pictures.

NOTE: Some special modifications may require the relocation of the data plate and/or the serial number frame stamp.
